

## Terrazzo Mix 100 Art Crete

### DESCRIPTION:

A versatile two-component casting mix that is perfect for casting figures and various shapes using casting molds. Component A consists of stone powder, binding materials, and proprietary ingredients, while Component B is a special acrylic liquid that is used in a 1:2 ratio with Component A.

### WHERE TO USE:

Where to Use: Terrazzo Mix 100: Art Crete is perfect for casting small figures and shapes using molds. It is suitable for various applications such as sculptures, decorative pieces, and more.

### FEATURES AND BENEFITS:

- Available in two basic colors: marble and white.
- Easy to use and handle, making it suitable for both hobbyists and professionals alike.
- Customizable with a range of colors and additives, making it versatile for a variety of applications such as sculptures, decorative pieces, and more.
- Offers a polished and professional finish that is sure to impress.
- Safe and user-friendly, ensuring a worry-free experience.

### HOW TO USE:

Mix Component A and Component B at a ratio of 2 parts powder to 1 part liquid. To achieve the desired color, add Decorete powder pigments to the mix during the mixing process. Colored chips can also be added to the mix to achieve the terrazzo look. Pour the mix into the casting mold and let it dry for 30-60 minutes. After 24 hours, the product will be cured and can be sanded with a fine grit sandpaper for a smoother finish. For added protection and durability, the finished product can be sealed with Deco Bond, Deco Resin, or Deco Seal.

#### Note:

Colored chips can be produced by coloring and spreading the required amount on a nylon sheet, leaving it to dry, and then collecting and crushing it to the desired size. Decorete powder pigments can only be used during the mixing process and not after the product has cured. Terrazzo Mix 100: Art Crete is designed for small applications. For large applications, Terrazzo Mix 300 is recommended.

### TECHNICAL DATA:

- Mixing Ratio: 2 parts powder to 1 part liquid
- Drying Time: 30-60 minutes
- Curing Time: 24 hours

### PACKAGING:

Terrazzo mix 100: Art Crete is available in two packages:

- 1 Kg powder (component A) and 0.5 Kg acrylic liquid (component B).
- 5 Kg powder (component A) and 2.5 Kg acrylic liquid (component B).

### STORAGE:

Keep containers tightly closed when not in use and store in dry conditions.  
Shell life in closed containers 12 months.
