Terrazzo Mix 200 Scent Stone

DESCRIPTION:

A single component product that can be mixed with water to create a fast-drying material that can be cast into molds to create small items. This product is ideal for small applications.

Terrazzo Mix 200 – Scent Stone powder is scented and will provide a long lasting fragrant finished product.

WHERE TO USE:

Where to Use: Terrazzo Mix 200: Scent stone is perfect for casting small figures and shapes using molds. It is suitable for various applications such as sculptures, decorative pieces, and more.

FEATURES AND BENEFITS:

- Easy to use and mix with water.
- Can be cast into molds to create small items.
- Scented to provide a long lasting fragrant.
- Can be colored with variety of coloring products.
- Can be sanded after final curing to achieve the desired finish.
- Optional sealing for added protection and durability.

HOW TO USE:

- Add the Terrazzo Mix 200 powder to water at a ratio of 2 powder to 1 water, in a clean mixing container.
- Mix thoroughly until a smooth and homogeneous consistency is achieved.
- Decorete powder pigments can be added to the mix during the mixing process, to obtain desired colors.
- Pour the mixture into the mold and tap the mold gently to remove any bubbles.
- Allow the mixture to cure for 30-60 minutes, depending on the temperature.
- Once fully cured, remove the item from the mold.
- If desired, sand the item to achieve the desired finish. Note that sanding should only be carried out after the final curing, which takes around 24 hours.
- If desired, color the finished product with Decorete acid stain, acrylic, water, or oil-based colors. This should be done after the final curing.
- If desired, seal the finished product with Deco Bond, Deco Resin, or Deco Seal. This should also

be done after the final curing.

- Note: It is recommended to add the powder to the water, not the other way around, to ensure a smooth and consistent mix. Some molds may require a lubricant, and it is important to remove any bubbles from the mixture before allowing it to cure. Sealing and sanding are optional and should only be done after the final curing, which takes around 24 hours.

TECHNICAL DATA:

- Drying Time: 30-60 minutes
- Full Curing: 24 hours
- Available colors: White and Sandy

PACKAGING:

Terrazzo mix 200: Scent stone is available in two packages:
